PRODUCT DATA SHEET

GT Line Professional Trolley GT 48-25 PSS

EAN 8024482191638

High-strength professional trolley

The latest-generation professional trolley GT 48-25 is the choice of professionals working in demanding environments who require efficient internal organisation.

This tool trolley is water-resistant, providing complete protection against water, dust, humidity, and corrosive agents.

Features

1. Protection for extreme environments.

The professional case is designed to ensure protection against splashes of water, sand, dust and humidity, making it ideal for any climatic condition and critical application.

2. Ultra-resistant structure against impacts and corrosive agents.

High-density polypropylene and anti-corrosion hinges make this professional container resistant to crushing, impacts, and aggressive chemical substances.

3. Intelligent organization with PSS™ system.

Internal panels with the PSS™ system offer modular and durable pockets and compartments, ideal for practical and secure arrangement of tools and technical accessories of various shapes and sizes.

4. Customizable interior with guaranteed stability.

The base is equipped with high-stability modular dividers that allow configuring the space based on the type of tools transported, improving safety and accessibility.

5. Maximum maneuverability during transport.

The tool case features a telescopic handle, sturdy wheels, and an ergonomically rubber-coated handle for easy transport even during frequent moves or on difficult surfaces.

6. Advanced security and work-focused details.

Steel reinforcements at padlock points, corrosion-resistant hinge pins, and gas struts ensure robustness and smooth, secure opening.

7. Integrated accessories for complete management.

The internal document pocket and external nameplate allow organized management of documentation, manuals, and quick content identification.

8. Stackable design for simplified logistics.

Designed to be easily stackable, this tool case optimizes space and organization during storage and transport on company vehicles.
