

GT Line was established in Bologna in 1970 and specialized from the beginning in the production of technical cases.

In a few years since its foundation, GT Line has become the leader in this field as well as the company offering the widest choice of products in the whole Europe.

50 years of experience and the UNI EN ISO 9001:2008 certified production process are the best guarantees of the quality of professional tool cases, waterproof cases and computer cases that are designed and built in our factories with advanced technologies and selected materials.

GT Line is a world-leader in the field of technical and professional cases because of its entrepreneurial spirit, technological research, precision manufacturing, quality control and the continuous upgrading of its resources.

GT Line has a firm hold on the European market thanks to its network of distributors and agents that operates in the hardware, tool, electrical and thermo-hydraulic fields.

Moreover, GT Line operates worldwide thanks to a well-consolidated network of partner distributors.

GT Line owes its success to the continuos investments in research, product development and innovation in general.

In the GT Line's management vision, these are the only viable chances of competing on the global market.

In line with that, constant effort is dedicated to the development of new materials as well as the evolution of production procedures, to make our cases always up to the expectations of the most demanding maintenance professionals.

Technical, industrial and professional tool cases, manufactured with different materials.

Virtually indestructible, durable, protective waterproof cases for extreme applications.

Tool bags, tool backpacks, accessories, tool jackets ideal for PROS and DIYers.

Computers, photo, multimedia and portable electronics carrying cases and bags.

To cope with an ever increasingly competitive market, GT Line continuously expands its knowledge and technical skills, by looking for new materials to improve the basic requirements of technical cases (robustness, lightweight, and practicalness) like aluminium, ABS, polyethylene, polypropylene, carbon fibre, etc.

GT Line, with its two factories in Europe and one in Asia, does not neglect the importance of aesthetic and cares of details, always offering new solutions characterized by the elegance of its design Made in Italy.

• Stronger telescopic handle with rubber grip.

Modular tool chest with various adjustable drawers configurations. Injection molded body made of copolymer PP material, able to withstand shocks, rough usage and harsh weather conditions. A number of optional accessories such as lid tool pallets, pivoting wheels set, and extra drawers are available. General features:

- Telescopic handle and four robust and silent self-oiling wheels
- Unique "stop-in-open-position" drawers system
- Removable tray in the upper compartment
- 2 Sides handles and central lock with key
- I.D. removable label and label for content identification
- Various padlockable points
- 2 jam free top lid latches and 2 front main door latches
- Removable upper top lid and removable front main door
- Ability to stack

2 H30 mm. comp. boxes mod. WL01 (6 comp. each)
2 H30 mm. comp. boxes mod. WL02 (13 comp. each)
1 H30 mm. comp. box mod. WL04 (10 comp. each)

NG.

Lightweight high capacity injection moulded polypropylene box for tough, heavy duty use. Ideal for use where high loading capacity is needed like construction sites, maintenance, transport, outdoor, nautical equipment.

General features:

- moulded integral lifting points on both ends
- full length steel hinge pin to lid
- positive grab over latching catches
- lid reinforcements
- slide out clear ID-Nameplate holder
- use in high/low temp environments
- padlocking provision
- side handles for two men carriage
- large front handle for hand carrying
