PRODUCT DATA SHEET

GT Line Professional Case GT 44-19 PTS

EAN 8024482015569

Professional water-resistant suitcase

The GT 44-19 PTS professional case is the ideal container for professionals who need reliable protection for tools and equipment.

Designed from high-strength polypropylene, it is a medium-sized, fully airtight tool case that is resistant to water, shock, sand, dust, and corrosion.

Features

1. Watertight seal and total protection from external agents.
Thanks to the molded gasket and pressure relief valve, this case is fully waterproof, shielding tools and accessories from water, humidity, dust, and fine particles.
2. Superior durability for extreme environments.
High-thickness polypropylene combined with corrosion-resistant hinge pins ensures durability even in the presence of chemicals, corrosive agents, or extreme weather (from -33°C to +90°C).
3. Rugged, stackable construction.
The design allows for secure stacking, while reinforced steel lock areas increase protection during transport and storage.
4. Advanced, modular internal organization.
Two tool panels with FLEXI POUCHES™ and a base with high-stability dividers provide optimal organization of any tool or technical accessory.
5. Practical and comfortable transport.
The ergonomic rubber-coated handle offers a secure, comfortable grip, while gas-pressurized lid stays ensure safe and effortless opening and closing.
6. Extra storage for documents and small parts.
Includes a document pouch and two mini drawers for organizing small components—always at hand and neatly stored.
7. Instant security and identification.
The built-in name tag holder enables quick identification of the tool case—ideal for mobile professionals

or shared workspaces.
