PRODUCT DATA SHEET

GT Line Professional Case R7/TOP

EAN 8024482004396

Elegance, Safety and Solidity in a professional aluminum case

The R7/TOP professional case represents excellence in the world of tool and equipment containers.
Crafted with a thick, anodised aluminium body, it combines refined design, maximum durability, and meticulous attention to detail.

Ideal as a tool case for technicians, maintenance workers, installers, and professionals seeking safety, organization, and style.
The combination lock, reinforced metal hinges, and thermoformed bottom tray ensure optimal protection and organization in any working environment.

Features

1.Professional elegance and timeless design.
The anodized aluminum structure with smooth lines and rounded corners gives the tool case a refined look and unmistakable style — perfect for professionals who want to stand out even on the job.
2. Guaranteed durability for intensive use.
The cold-pressed 15/10 aluminum body and reinforced profiles ensure resistance to impacts, wear, and deformation, making the R7/TOP a professional container ready to face even the most demanding environments.
3. Advanced protection against unauthorized access.
Equipped with two chrome-plated steel locks and a central three-digit combination lock, this tool case effectively protects its contents from tampering or unauthorized access.
4. Long-lasting mechanical reliability.
Three reinforced metal hinges and four metal feet provide a stable base and long service life, even after thousands of openings and movements.
5. Comfortable and secure transport.
The chrome handle with non-slip rubber grip ensures a safe and comfortable hold, making daily transport easier.
6. Optimized internal organization.

The thermoformed bottom tray with three fixed compartments allows for neat organization of tools and accessories, ensuring quick access and efficient use of internal space.

7. Lid stability and secure opening.

The spring-loaded lid support arms prevent accidental openings, enhancing user experience in dynamic environments or on inclined surfaces.
