PRODUCT DATA SHEET

GT Line Professional Trolley GT 48-25 PEL

EAN 8024482191621

High-strength professional trolley

The latest-generation professional trolley GT 48-25 is the choice of professionals working in demanding environments who require efficient internal organisation.

This tool trolley is water-resistant, providing complete protection against water, dust, humidity, and corrosive agents.

Features

1. Protection from water, dust, and external agents.
The professional case is made of polypropylene, offering protection against splashes of water, humidity, and sand, even in extreme conditions.
2. Structural resistance for extreme environments.
Designed to withstand temperatures from -33°C to +90°C, impacts, crushing and corrosive substances, this tool case is perfect for critical missions and intensive use.
3. Versatile and intelligent internal organization.
The two tool panels with elastic bands offer an orderly and accessible arrangement for tools of various sizes, while the modular dividers in the bottom allow for a customized configuration.
4. Maximum stability and comfort in transport.
Equipped with an ergonomic rubber-coated handle, telescopic handle and integrated wheels, it allows easy movement even with the contents fully loaded.
5. Advanced safety and professional details.
Steel reinforcements at the fixing points for padlocks, anti-corrosion hinges and gas-pressurized lid support arms ensure durability, safety and ease of use.
6. Integrated document management.
The document pocket and the identification name plate complete the equipment, making this tool case perfect for the management of sensitive materials or technical certifications.
7. Stackable design for efficient logistics.

The external design is optimized for stacking, ideal for multiple transports and organized storage in warehouses or work vehicles.
