PRODUCT DATA SHEET

GT Line Professional Trolley GT 53-26 PEL

EAN 8024482180809

Professional trolley: great organization and capacity in a very sturdy container

The GT 53-26 PEL professional trolley is a durable and highly capacious professional container. Made of sturdy polypropylene, this trolley offers complete protection even in the most demanding applications.

Features

Protection against splashes of water, dust, and external agents.
The trolley protects instruments even in humid, sandy, or contaminated environments.
2. Ultra-rugged construction for extreme conditions.
Made of high-thickness polypropylene with corrosion-resistant hinge pins and steel-reinforced padlock zones, it withstands impacts, crushing, and corrosive substances. Operates reliably from -33°C to +90°C.
3. Optimal capacity for bulky equipment.
The thermoformed base with adjustable dividers ensures efficient organization of large or irregularly shaped tools.
4. Smart, customizable internal layout.
Equipped with two tool panels with elastic loops and a double-sided elastic panel in the lid, it offers a neat, modular setup for every tool and accessory.
5. Maximum mobility, even during air travel.
Integrated wheels and a telescopic handle make this tool case ideal for professionals on the move, including frequent flyers.
6. Ergonomics and user comfort.
The rubber-coated handle provides a secure and comfortable grip, reducing fatigue during extended transport.
7. Reliable identification and traceability.
The built-in name tag holder and internal document pocket ensure quick ID and organized management of labels and documents.

8. Stackable and space-saving.
The stackable design simplifies storage in workshops, warehouses, or service vehicles—maximizing space without compromising accessibility.
