PRODUCT DATA SHEET

GT Line Tool Trolley AI1X.B

EAN 8024482183596

Maximum Versatility and Organization on the Move

The **AI1X.B trolley** is a professional container **designed for technicians and maintenance workers** who need a robust, versatile, and highly organized tool case.
Built in durable injection-moulded polypropylene, it is ideal for demanding work environments. Its modular structure with **customizable drawers**, **generous storage space**, and optional accessories makes this tool case the ultimate solution for order, safety, and practicality - even during long-distance transport.
Thanks to the integrated **INTELLIRESPOND** technology, users can manage and monitor tool case contents directly from their smartphone **for smart equipment control**.

Features

1. **Maximum resistance in all working conditions**
   Made of high-density injection-molded polypropylene, this tool trolley is designed to withstand shocks, stress, and extreme conditions, ensuring long-lasting protection and durability.

2. **Modular system with configurable drawers**
   The internal space can be customized with 3–8 drawers of various heights (30, 60, 95 mm), outfitted with pre-cubed foam, small parts cups, or tool panels, turning the trolley into a truly tailor-made tool case.

3. **Quick and safe access to tools**
   The removable drawers are equipped with an anti-release safety lock, preventing accidental opening and ensuring neat and secure access to each tool.

4. **Centralized locking with key**
   A centralized locking system allows simultaneous locking of the top and front covers, protecting contents from unauthorized access and accidental openings during transport.

5. **Easy transport and professional mobility**
   Equipped with a telescopic handle, two side handles, and four robust silent wheels, the trolley moves easily even on rough terrain, reducing fatigue and increasing productivity.

6. **Smart tool management with INTELLIRESPOND**
   Thanks to the free INTELLIRESPOND app, you can track, inventory, and control your tools directly from your smartphone. Visit www.intellirespond.com for more details.
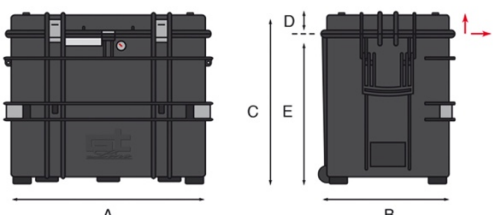

7. **Advanced organization for small parts**
   Includes 5 preconfigured small parts drawers (2x WL01, 2x WL02, 1x WL04) with dedicated compartments for screws, nuts, bolts, and small components - for optimal, always-accessible organization.

8. **Expandable structure compatible with additional modules**
   The new top cover features a patented stacking system compatible with AI1MOD modules, allowing expanded capacity and the creation of a full multi-level system.

9. **Details that make a difference for professionals**
   Removable top tray, dual-lever locks, identification label, padlock-ready lock points, and name tag: every detail is designed to simplify the daily use of your tool case.
