GT Line Tool Case AI1MOD16 PTS

EAN 8024482191485

Advanced Modularity and Flexible Organization for Your Work

The **AI1MOD16 PTS tool case** is a practical and professional solution for those looking for a compact, durable and highly organized container. Equipped with **two tool panels with FLEXI POUCHES,™** this *professional case* allows you to arrange and secure hand tools of various sizes with extreme flexibility, making each tool easily accessible. AI1MOD16 PTS is an integral part of GT Line's **AI1MOD modular system**: it can be used independently or stacked with other modules of the **ALL IN ONE** trolley, thanks to the patented **Lock-Unlock** system. Made of **shockproof polypropylene**, it is also compatible with trolleys of previous generations through the use of the AI1LID lid. It is also equipped with **INTELLIRESPOND** technology, for digital and intelligent management of the contents of the tool case.

Features

1. **Flexibility and order with FLEXI POUCHES™**
   The two internal panels with flexible pockets allow you to store and organize hand tools in a quick, visible and customizable way, improving operational efficiency.

2. **Compact, lightweight and ultra-resistant structure**
   Built in high-strength polypropylene with injection molding, the case guarantees robustness in harsh environments, maintaining a low weight of 4.11 kg.

3. **AI1MOD modular system compatible with ALL IN ONE**
   The can be used stand-alone or stacked with other modules to create a professional container on wheels, perfect for mobile workshops and field workers.

4. **Patented Lock-Unlock system for quick connection**
   The practical push-button mechanism allows you to attach or detach the modules in seconds, making it easy to transport and set up the case.

5. **Backward compatibility with AI1LID lid**
   The module is backward compatible with previous generation ALL IN ONE trolleys, which can be upgraded with the new lid to ensure continuity and versatility of use.

6. **Digital management with integrated INTELLIRESPOND**
   The free app allows tracking, inventory, and control of tools via smartphone or tablet. Learn more about www.intellirespond.com.

7. **Optimal dimensions for transport and integration**
   With external dimensions of 585 x 369 x 198 mm, the case is easily stackable and perfect for equipped vehicles, professional shelving and mobile systems.
