GT Line Atomik PSS Professional Case

EAN 8024482015675

Maximum Resistance and Organization

The **Atomik case** is the perfect solution for professionals who need **security, resistance and order**. Made of **thick polypropylene with injection molding technology**, it guarantees **protection against impacts, corrosive substances and extreme temperatures**. Designed for the most demanding professionals, it offers long-lasting protection and optimal organization.

Features

- 1. Long-lasting protection in harsh working environments.**
The High Thickness Polypropylene offers high resistance to impacts, corrosive substances and extreme temperatures, ensuring that the case will withstand even the harshest conditions.
- 2. Reinforced corners and uniform protection against impact and stress.**
Injection Molding allows you to obtain a solid structure, with reinforced corners that offer uniform protection throughout the case, avoiding damage from impacts or daily stress.
- 3. Optimum internal organisation and quick access to tools, thanks also to the two tool panels with PSS™ system on one side and on two sides.**
Adjustable and removable dividers allow you to easily customize the interior space, offering quick and tidy access to all your tools and accessories.
- 4. Advanced protection against unauthorized access.**
Keyed Locks and Reinforced Metal Hinges ensure a secure lock, protecting your tools from unauthorized access attempts.

PRODUCT SHEET

5. Comfortable and easy transport even during long journeys.

The ergonomic rubber-coated handle designed for comfortable carrying, makes it easy to move, even over long distances, reducing fatigue and improving grip.

6. Quick identification and optimal management of accessories.

The Name Plate allows for quick identification, while the Add-on Panel and integrated document area provide space to organize documents, business cards, and other accessories.

7. Compact and easily portable design.

The case is designed to be easily stored and transported, ideal for those who work on the move, without sacrificing the protection of their tools.
