GT Line Professional Case BOMBER 170 PEL

EAN 8024482004198

Extreme Robustness and Professional Organization

The Bomber 170 professional case is an ultra-resistant professional container, ideal for technicians and maintenance technicians looking for a safe tool case, organized and ready for anything. Made with high-density shockproof polyethylene shells using double-walled technology and rotational molding (roto molding), it offers exceptional resistance to impacts, extreme temperatures and chemicals.

TSA-certified locks also make it perfect for air travel, while the integrated **INTELLIRESPOND** technology allows digital control of the contents via a free app. Bomber 170 is the tool case for those who do not want to compromise between robustness and innovation.

Features

- 1. Maximum protection against shocks, extreme temperatures and chemicals.**
Roto molded high-density polyethylene shells provide superior protection, making this tool case ideal for harsh working environments and demanding transport.
- 2. Double-walled construction for exceptional strength.**
The double-walled construction absorbs impacts and offers greater safety for your tools even in the most extreme conditions.
- 3. Intelligent control of implements thanks to the INTELLIRESPOND app.**
The integrated technology allows content management and monitoring via app, transforming the tool case into a smart tool for daily organization.
- 4. TSA certified locks for worry-free travel.**
The two TSA locks with key allow airport controls without damage, ideal for those traveling with professional equipment.
- 5. Metal hinges and arms for long life.**
The lid support arms and the hinges riveted in several points guarantee robustness and reliability even after repeated openings and closings.
- 6. Versatile and practical internal organization.**
The object holder bottom with adjustable dividers and the two small parts drawers allow for personalized organization for every professional need.

PRODUCT SHEET

7. Ergonomic handle for maximum carrying comfort.

The rubber coating improves grip and reduces fatigue during transport, making it a convenient tool case even for long journeys.

8. Integrated document pocket for complete management.

Ideal for transporting technical data sheets, manuals or intervention documents, all in a single professional container.
