GT Line WATERPROOF Professional Trolley GT 48-25 PSS

EAN 8024482191638

Watertight and Maximum Operational Efficiency

The GT 48-25 PSS professional case is a new generation professional container designed to ensure the highest level of protection and organization for technical equipment and tools. Made of high-strength polypropylene and equipped with a hermetic seal and pressurization valve, it ensures total protection against water, dust, humidity and chemical agents. The two tool panels with PSS™ (Professional Storage System) system offer efficient and modular management of the interior space, designed to meet the needs of the most demanding professionals in the industrial, nautical, medical and military sectors. Ideal as a tool case for those looking for solidity, order and high performance.

Features

- 1. Waterproof protection for extreme environments.**
The professional case is equipped with a dispensed gasket and pressurization valve that ensure a watertight seal against water, sand, dust and humidity, making it ideal for all climatic conditions and critical applications.
- 2. Ultra-resistant structure against shocks and corrosive agents.**
High-density polypropylene and corrosion-resistant hinges make this professional enclosure resistant to crushing, impact, and harsh chemicals.
- 3. Intelligent organisation with PSS™ system.**
PSS™ interior panels offer modular, durable pockets and housings that are ideal for convenient and secure storage of tools and technical accessories of various shapes and sizes.
- 4. Customizable interior with guaranteed stability.**
The bottom is equipped with high-stability modular dividers that allow the space to be configured according to the type of instruments transported, improving safety and accessibility.
- 5. Maximum manoeuvrability in transport.**
The tool case is equipped with a telescopic handle, sturdy wheels and an ergonomic rubber-coated handle for easy transport even on frequent movements or on difficult surfaces.
- 6. Advanced security and details designed for the job.**
Steel reinforcements at the padlock attachment points, hinges with anti-corrosion pins and gas lid support arms ensure robustness and a smooth and safe opening.

PRODUCT DATA SHEET

7. Built-in accessories for complete management.

The internal document pocket and the external name plate allow orderly management of documentation, manuals and quick identification of the contents.

8. Stackable design for simplified logistics.

Designed to be easily stackable, this tool case allows you to optimize space and organization both during storage and transport on company vehicles.
