## GT Line Tool Trolley AI1X.B.LMT

EAN 8024482183619

**Efficiency, Safety and Modularity for Every Professional**

The AI1X.B.LMT is a professional tool case designed to offer maximum convenience and protection during the transport of hand tools, power tools, and small parts. Made of robust injection-moulded polypropylene, this professional container is built for extreme work environments and long-term durability.

Thanks to its modular structure with configurable drawers, secure locking system, and optional accessories, the AI1X.B.LMT becomes an indispensable tool for the most demanding technicians.

With integrated INTELLIRESPOND technology, professionals can intelligently and digitally monitor the contents of their tool case.

### Features

1. Ultra-resistant and lightweight structure for tough environments

Made of high-density polypropylene, this tool case ensures impact resistance, lightness, and durability, even in the most demanding operating conditions.

2. Modular configuration for customized organization

From 3 to 8 front-removable drawers of different heights (30, 60, 95 mm) allow you to create a personalized layout with pre-cubed foam, small parts containers, or tool panels.

3. Safe and immediate access to tools

The drawers are equipped with a locking system that prevents accidental openings, providing order and speed during daily operations.

4. Centralized key lock for maximum security

The centralized locking system allows simultaneous locking of the top and front lids, protecting contents from unwanted openings.

5. INTELLIRESPOND technology for smart management

Digitally control and manage the contents of your tool case with the free INTELLIRESPOND app. Visit [www.intellirespond.com](http://www.intellirespond.com) for more information.

6. Uncompromised mobility

Thanks to the telescopic handle, two side handles, and four robust self-lubricating silent wheels, the

trolley is easy to transport anywhere, even over long distances.

7. Perfect organization of small parts

The case includes 5 small parts drawers (2 x WL01 with 6 compartments, 2 x WL02 with 13 compartments, 1 x WL04 with 10 compartments) and a removable upper tray for larger components and accessories.

8. Expandable structure with patented AI1MOD system

The new lid is designed with a patented stacking system to attach AI1MOD modules, increasing the container's capacity and flexibility.

9. Functional details for efficient daily use

Equipped with a name tag holder, content identification label, dual lever locks, and padlock-ready points, this tool case is ready for any challenge in the field.
