

GT Line Tool Case AIMOD31X

EAN 8024482191690

Smart Vertical Organization for a Modular and Sturdy Tool Case

The AI1MOD31X professional case is the module of the ALL IN ONE line designed for those looking for a practical, versatile and resistant tool container, perfect for containing and transporting work tools in an orderly and efficient way. Equipped with internal racks designed to accommodate the modular drawers of the AIBOX series, it allows the vertical loading of tools, optimizing space and making tools easily accessible. This professional tool case is made of impact-resistant polypropylene by injection molding, to ensure maximum strength with a low weight. Compatible with the other modules in the range, it can be used as an independent work container or stacked thanks to the patented "Lock-Unlock" system, for mobile configurations tailored to every professional need. Perfect for electricians, maintenance technicians, installers and tradespeople, it is also compatible with INTELLIRESPOND technology for digital inventory and content tracking. This tool container represents the perfect evolution of the traditional tool bag: a modular system that adapts to the needs of the modern professional.

Features

1. AIBOX Vertical Load Internal Rack

The interior features a rack system designed to hold AIBOX drawers of various sizes, improving the order and accessibility of your tools.

2. Modular system for independent or combined use

Can be used as a stand-alone work tool case or combined with other modules from the AI1MOD line, ideal for composing a configurable work container.

3. Robust yet lightweight, ready for any situation

Made of impact-resistant polypropylene, it weighs just 4.79 kg and offers a high load capacity (30 kg), perfect for professionals on the move.

4. Patented Lock-Unlock system for quick stacking

The release button allows for quick and easy operation, allowing modules to be attached or detached in seconds.

5. Compatible with previous generation ALL IN ONE modules

Thanks to the AI1LID cover, AI1MOD31X can also be integrated into previous systems, maximizing operational flexibility.

6. Digital management with INTELLIRESPOND

Conitate your tools via the free INTELLIRESPOND app for smartphones: organize, control and track your professional tool cases in real time.

7. Compact and functional design

The external (585 x 369 x 348 mm) and internal (483 x 296.5 x 340 mm) dimensions allow perfect integration with other modules or transport in equipped vehicles.
