Intelligent Protection for PCs and Equipment

Cyber Boxer is the *perfect professional PC case* for those who need to transport and protect delicate electronic devices such as notebooks, portable printers or projectors. Made of injection-molded polypropylene, it combines lightness, strength and intelligent internal organization. The bottom with *pre-cubed foam* allows total customization, transforming this *tool case* into a *professional custom-made container*. Ideal for technicians, installers, maintenance technicians and IT professionals looking for a *versatile, compact and secure tool case*.

Features

- 1. Secure protection for electronic devices and accessories.**
The high-strength polypropylene construction protects against shocks, vibrations and external agents, keeping notebooks, projectors and electronic instruments intact even during the most demanding transports.
- 2. Customizable inner foam for tailored protection.**
The bottom with removable pre-cubed foam allows you to shape the internal space according to the size of the objects to be protected, ensuring a stable hold and perfect padding.
- 3. Notebook hard top with secure attachment.**
The dedicated notebook top features adjustable straps that keep the device in place during transport, preventing unwanted movement.
- 4. Efficient organization of documents and accessories.**
The practical document pocket allows you to carry manuals, data sheets or worksheets always in order and ready to use.
- 5. Enhanced security with central lock.**
The keyed lock and two side locks provide an effective locking system, protecting the contents from unauthorized access.
- 6. Convenient and practical transport for every trip.**
The adjustable shoulder strap allows you to carry the suitcase comfortably on your shoulder, leaving your hands free while on the move.
- 7. Compact design for maximum versatility.**
The *Cyber Boxer tool case* is easy to store and suitable even for tight spaces, perfect for professionals who are always on the move.
