

PRODUCT DATA SHEET

GT Line Professional Trolley Flash 2 PEL

EAN 8024482182599

Essential Functionality and Robustness

The **Flash 2 professional case** is the ideal container for those looking for a perfect balance between quality, functionality and price. Built with injection-molded ABS walls and reinforced with aluminum profiles, this **tool case** is designed to last over time, even in the most demanding work environments. The internal organization is designed to meet the needs of technicians, maintenance technicians and installers, offering a compact, resistant and easily transportable solution. The **Flash 2 tool case** is a practical, versatile and reliable option for any professional on the move.

Features

- 1. Solid and impact-resistant structure.**
The injection-molded ABS body ensures robust protection against shocks and mechanical stress, keeping the contents safe even in harsh conditions.
- 2. Aluminum reinforcements for durability.**
The aluminium corner profiles increase the structural strength of the professional enclosure, protecting it from daily wear and tear and accidental blows.
- 3. Efficient and modular internal organization.**
The two internal panels with elastic bands and the document pocket with tool pockets allow you to keep each tool in its place, improving speed and precision in operational activities.
- 4. Customizable bottom with removable dividers.**
The lower compartment offers the possibility to configure the space according to your needs, making this tool case extremely versatile.
- 5. Maximum security thanks to keyed locks.**
The two key locks ensure that tools are protected against unauthorized access, ideal for those carrying valuable tools.
- 6. Safety zippers for reliable closure.**
The two rear hinges ensure an optimal seal, protecting the contents from accidental opening while moving.
- 7. Ergonomic handle with non-slip rubber grip.**
The rubber-coated handle design ensures a comfortable and secure grip even during prolonged transport or heavy loads.

PRODUCT DATA SHEET

8. Easily washable interior for quick maintenance.

The inner surface of the case is designed to be easy to clean, always maintaining hygiene and order inside the container.
