GT Line WATERPROOF Professional Trolley GT 48-25 PEL

EAN 8024482191621

Maximum Protection and Organization in Every Extreme Environment

The GT 48-25 PEL Professional Trolley is the ideal container for professionals who work in harsh environments and need efficient internal organization. This tool case guarantees total watertightness thanks to the special gasket and pressurization valve, offering absolute protection against water, dust, humidity and corrosive agents. Designed for high-intensity sectors – industrial, nautical, medical, military – it combines the robustness of polypropylene with an extraordinary organizational capacity thanks to the elastic panels, internal dividers and attention to detail for transport. The GT 48-25 PEL is much more than a tool trolley: it is a true professional mobile workstation.

Features

- 1. Total protection from water, dust and external agents.**
The professional case is made of high-strength polypropylene with a hermetic seal and pressurization valve, offering watertight containment against liquids, moisture and sand, even in extreme conditions.
- 2. Structural strength for extreme environments.**
Designed to withstand temperatures from -33°C to +90°C, shocks, crushing and corrosive substances, this tool case is perfect for mission-critical and intensive use.
- 3. Versatile and intelligent internal organization.**
The two tool panels with elastic bands offer a neat and accessible arrangement for tools of various sizes, while the modular dividers in the bottom allow for a custom configuration.
- 4. Maximum stability and comfort in transport.**
Equipped with an ergonomic rubber-coated handle, telescopic handle and integrated wheels, it allows easy movement even with the contents fully loaded.
- 5. Advanced security and professional details.**
Steel reinforcements at the padlock attachment points, corrosion-resistant hinges and gas-pressurized lid support arms ensure durability, safety and ease of use.

PRODUCT DATA SHEET

6. Integrated document management.

The document pocket and the name tag complete the equipment, making this tool case also perfect for handling sensitive materials or technical certifications.

7. Stackable design for efficient logistics.

The exterior design is optimized for stacking, ideal for multiple transports and organized storage in warehouses or work vehicles.
