Belt Drill Holder: Practicality and Speed Always Within Reach

Drill R is a belt-mounted drill or driver holster designed to give professionals maximum freedom of movement and immediate access to their main tool during operations.

Lightweight and compact, it features a grommet for direct attachment to the Top Belt R, making it the ideal accessory for those working at height, on the move, or in tight spaces.

Perfect as part of an integrated transport system including a tool backpack, professional tool bag, tool case, or tool trolley — a smart solution to always have your drill or driver at hand without needing to constantly store it.

Features

1. Lightweight, durable drill holster.

Designed to hold and protect drills or drivers during daily use, weighing just 0.1 kg.

2. Compatible with Top Belt R tool belt.

Thanks to the practical loop, it can be easily attached to modular systems, transforming the belt into a compact and efficient work tool bag.

3. Immediate access to main tool.

Designed to keep your tool always within reach, it improves efficiency and reduces intervention time.

4. Compact, low-profile design.

With dimensions of 150 x 35 x 350 mm, it does not obstruct movement and provides maximum freedom even in dynamic work environments.

5. Perfect for technicians, installers, and mobile maintenance professionals.

PRODUCT DATA SHEET

An ideal solution for work on ladders, systems, panels, or structures where free hands are essential.

6. Essential accessory in GT Line modular systems.

Perfectly integrates with professional backpacks, tool cases, tool bags, and professional luggage for a customized organization.
