

PRODUCT DATA SHEET

GT Line Professional Trolley WATERPROOF GT 53-26 PEL

EAN 8024482180809

Maximum Protection and Capacity in Every Condition

The WATERPROOF GT 53-26 PEL is the ultimate professional case for those working in extreme environments and in need of a fully waterproof, durable, and spacious container. Designed by GT Line to provide maximum protection for your tools, this tool case ensures complete sealing against water, moisture, dust, and sand. Made of tough polypropylene and equipped with a pressure relief valve, it offers full protection even in the most demanding applications—from industrial to military, including marine and medical fields. A tool case built to last, designed to follow you anywhere with reliability and organization.

Features

1. Total protection from water, dust, and external agents.

Thanks to its molded gasket and automatic pressure relief valve, the case is fully watertight, shielding tools even in humid, sandy, or contaminated environments.

2. Ultra-rugged construction for extreme conditions.

Made of high-thickness polypropylene with corrosion-resistant hinge pins and steel-reinforced padlock zones, it withstands impacts, crushing, and corrosive substances. Operates reliably from -33°C to +90°C.

3. Optimal capacity for bulky equipment.

The thermoformed base with adjustable dividers ensures efficient organization of large or irregularly shaped tools.

4. Smart, customizable internal layout.

Equipped with two tool panels with elastic loops and a double-sided elastic panel in the lid, it offers a neat, modular setup for every tool and accessory.

5. Maximum mobility, even during air travel.

Integrated wheels and a telescopic handle make this tool case ideal for professionals on the move, including frequent flyers.

6. Ergonomics and user comfort.

The rubber-coated handle provides a secure and comfortable grip, reducing fatigue during extended transport.

7. Reliable identification and traceability.

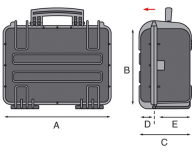

The built-in name tag holder and internal document pocket ensure quick ID and organized management of

labels and documents.

8. Stackable and space-saving.

The stackable design simplifies storage in workshops, warehouses, or service vehicles—maximizing space without compromising accessibility.

External measurements*	
Length	627 mm 24.69 in
Depth	474,5 mm 18.68 in
Height	292 mm 11.50 in

Weight	
	9,12 Kg 20.11 lbs

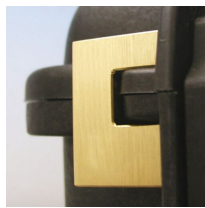

Load capacity	
	35 Kg 77.16 lbs

Color	
	Black

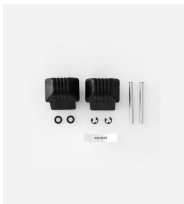

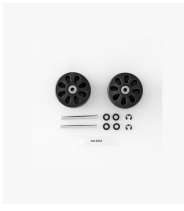

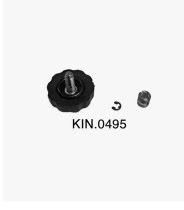

Specifications	
Wheels	2 Ruote autolubrificanti
Colour	Black
Handles	1 Ergonomic handle with rubber coating 1 Telescopic handle
Linkages	Gas pressurised lid supports
Panels	1 tool panel with elastic bands on two sides 2 tool panels with elastic bands on one side
Document holder	1 document pocket
Locks	Lever-release locks. Padlock provision and steel reinforcements at the fastening points
Tag	1 Name plate
Base	Base with removable and adjustable dividers
Hinges	Corrosion proof metal hinges with lid stay features
Stackable	Yes
Valve	Pressurization valve
Dimensional tolerance	+/-1,5% from nominal measurements
Solutions	With wheels
Series	GT 53-26
