GT Line Tool Case AI1MOD16 PTS

EAN 8024482191485

Advanced Modularity and Flexible Organization for Your Work

The AI1MOD16 PTS tool case offers a practical and professional solution for those seeking a compact, rugged, and highly organized container.

Equipped with two tool panels featuring FLEXI POUCHES™, this tool case allows for extremely flexible arrangement of various hand tools, ensuring quick access.

Part of GT Line's AI1MOD modular system, it can be used independently or stacked with other ALL IN ONE modules thanks to the patented Lock-Unlock system.

Made of impact-resistant polypropylene, it's compatible with previous trolley generations via the AI1LID cover.

Also includes INTELLIRESPOND technology for smart digital content management.

Features

1. Flexibility and order with FLEXI POUCHES™ The two internal panels with flexible pockets allow manual tools to be stored and organized quickly, visibly, and in a personalized manner, improving operational efficiency.
2. Compact, lightweight, and ultra-durable structure Made of high-strength polypropylene with injection molding, the case offers robustness in harsh environments while maintaining a low weight of 4.11 kg.
3. AI1MOD modular system compatible with ALL IN ONE It can be used independently or stacked with other modules to create a wheeled professional container, ideal for mobile workshops and field operators.
4. Patented Lock-Unlock system for quick connection The practical push-button mechanism allows you to connect or disconnect the modules in seconds, making transport and configuration easy.
5. Backward compatibility thanks to the AI1LID cover The module is backward compatible with earlier generation ALL IN ONE trolleys, which can be upgraded with the new lid to ensure continuity and versatility of use.
6. Integrated digital management with INTELLIRESPOND The free app allows monitoring, inventory management, and control of tools via smartphone or tablet. Learn more at www.intellirespond.com.
7. Optimal dimensions for transport and integration With external measurements of 585 x 369 x 198 mm, the case is easily stackable and perfect for outfitted vehicles, professional shelving, and mobile systems.

Dimensional tolerance	+/-1,5% from nominal measurements
Solutions	Without wheels
Series	All In One Modular System
Material	POLIPROP.K12/HAIPLEN
Wheels	Senza Ruote

Accessories

IT00357	GT Line AI1LID Professional Lid for ALL IN ONE Tool Case	The AI1LID cover is the essential accessory for those looking to upgrade previous models of the ALL IN ONE system and make them fully compatible with GT Line's new AI1MOD modular system. Designed as an integral part of a modular professional container, this cover allows for secure and fast stacking of new modules, turning a simple tool case into an advanced, expandable, and fully customizable transport system. Made from high-strength polypropylene, it is lightweight, compact, and ideal for professionals on the move who need durable, reliable, and modular solutions. With AI1LID, your tool case evolves to meet the demands of the modern professional.
