

PRODUCT DATA SHEET

Work Line by GT Tool Holder Panel Tool Roll 12T R

EAN 8024482189437

Compact, Lightweight, and Ready to Use Anywhere

The Tool Roll 12T R is the ideal roll-up tool holder for those looking for a practical, lightweight, and highly functional solution for tool organization.

With 12 dedicated pockets, this roll holds wrenches, pliers, screwdrivers, and more in a tidy and secure way.

Ideal for use inside a professional tool bag, work backpack, tool case, or on its own, it's a must-have for modern technicians who value speed and efficiency.

The Tool Roll 12T R combines compactness with versatility — the perfect ultra-light tool bag.

Features

1. Tool roll with 12 independent pockets.

Each tool has its own dedicated space thanks to well-distributed pockets, ideal for tidy and immediate access to the most frequently used tools.

2. Compact, foldable design for maximum portability.

When not in use, the roll folds onto itself, taking up very little space in any tool bag, professional backpack, or tool case.

3. Open size of 500 x 320 mm for full visibility.

The extended layout provides a complete overview of the tools, reducing search time and increasing productivity in the field.

4. Ultra-lightweight: only 0.35 kg.

The Tool Roll 12T R is the perfect choice for those who need a light but spacious work tool bag, easy to carry even by hand.

5. Ideal for any type of professional.

Perfect to pair with a trolley backpack, a tool case, or used as a standalone accessory for quick, targeted

interventions.

6. Compatible with all GT Line solutions.

Designed to integrate easily with other professional cases, tool bags, and backpacks from the Work by GT Line range.
