PRODUCT DATA SHEET

GT Line Professional Case BOXER PEL

EAN 8024482004006

Lightness and Durability for Every Professional Endeavor

The Boxer case strikes the perfect balance between lightness and strength, making it ideal for professionals seeking a reliable and practical container. Despite its compact size, it offers generous internal capacity. Made of injection-molded polypropylene, it delivers excellent value for money without compromising on storage space. The aluminium frame adds extra strength, making this tool case the ideal choice for those looking for a professional case that combines practicality, security, and functional design.

Features

1. Easy to carry without compromising on toughness.

The new rubber-grip handle provides a secure and comfortable hold, even for long hauls.

2. Secure protection for your tools.

New side locks with keys offer strong defense against unauthorized access.

3. Efficient organization for optimal management.

The document pocket and two small parts drawers help keep items neat and accessible.

4. Practical lid support for convenient use.

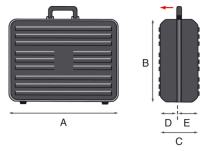

The lid support bar keeps the cover open during use, making operations smoother and faster.

5. Maximum versatility for every tool.

Two elastic tool panels let you store and retrieve essential tools quickly while maintaining order inside the case.

6. Thermoformed bottom for optimal protection.

Designed to support and protect items of varying sizes and shapes, ensuring safe storage and transport.
