PRODUCT DATA SHEET

GT Line Professional Trolley Atomik WH PEL

EAN 8024482016436

Reliable, lightweight and easy to carry

The Atomik WH case is the perfect solution for travelling professionals who require security, durability, and organization—along with comfort during their journeys. Made of thick polypropylene using injection molding technology, it ensures protection against impacts, corrosive substances, and extreme temperatures. Designed for the most demanding professionals, it offers long-lasting protection, optimal organization, and ease of use.

Features

1. Long-lasting protection in harsh work environments.

Thick-walled polypropylene offers high resistance to impacts, corrosive substances, and extreme temperatures — ensuring the case withstands even the most demanding conditions.

2. Reinforced corners and uniform impact protection.

Injection molding creates a solid structure with reinforced corners that provide consistent protection across the entire case, minimizing damage from daily stress or impacts.

3. Optimal internal organization and quick tool access, with double tool panels featuring elastic holders.

Adjustable and removable dividers and elastic panel options allow for easy interior customization and fast access to tools and accessories.

4. Advanced protection against unauthorized access.

Key locks and reinforced metal hinges offer secure closure, safeguarding your tools from tampering.

5. Comfortable and easy transport even over long distances.

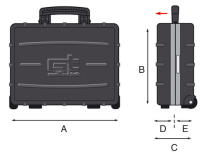

The ergonomic rubber-coated handle ensures comfortable handling, while ball-bearing wheels make transport smooth and effortless.

6. Fast identification and optimal accessory management.

The name tag holder ensures quick identification, and the additional panel and integrated document pocket provide space for organizing paperwork, business cards, and other accessories.

7. Compact and easy to transport.

The case is designed to be easily stowed and carried, ideal for professionals on the go who still require maximum protection for their tools.
