PRODUCT DATA SHEET

GT Line Professional Trolley Atomik WH PTS

EAN 8024482016429

Reliable, lightweight, and easy to carry

The Atomik WH case is the perfect solution for travelling professionals who require security, durability, and organization—along with comfort during their journeys. Made of thick polypropylene using injection molding technology, it ensures protection against impacts, corrosive substances, and extreme temperatures. Designed for the most demanding professionals, it offers long-lasting protection, optimal organization, and ease of use.

Features

1. Long-lasting protection in demanding work environments.

Thick-walled polypropylene offers high resistance to impacts, corrosive substances, and extreme temperatures, ensuring that the case withstands even the harshest conditions.

2. Reinforced corners and consistent protection from impact and stress.

Injection molding creates a solid structure with reinforced corners, delivering uniform protection across the entire case and reducing damage from everyday wear and tear.

3. Optimal internal organization and quick tool access, enhanced by two tool panels with elastic holders on one or both sides.

Adjustable and removable dividers, along with panels featuring PSS™ or FLEXI POUCHES™, allow for easy customization of the interior, ensuring fast, organized access to all tools and accessories.

4. Enhanced protection from unauthorized access.

Key locks and reinforced metal hinges provide secure closure, protecting your tools from tampering and unauthorized openings.

5. Comfortable and convenient transport over long distances.

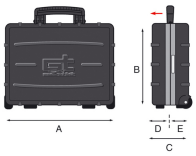

The ergonomic rubber-coated handle offers a comfortable grip, reducing fatigue and improving handling even during extended travel.

6. Ball-bearing wheels ensure smooth and effortless mobility.

The name tag holder allows quick identification, while the additional panel and built-in document pocket provide space to organize paperwork, business cards, and accessories.

7. Compact and easily transportable design.

Engineered for portability and space efficiency, this case is perfect for professionals on the move who still demand robust tool protection.
