PRODUCT DATA SHEET

GT Line Tool Case AI1MOD16 PSS

EAN 8024482191492

Maximum Flexibility and Organization in a Compact Modular System

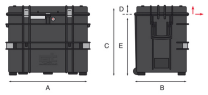

The AI1MOD16 PSS tool case is the ideal professional container for those seeking the perfect combination of practicality, organization, and durability.
Equipped with one panel featuring FLEXI POUCHES™ and one with the PSS™ system, it offers a secure and versatile layout, keeping tools always within reach.
Part of the AI1MOD system, it can be used alone as a compact tool case or integrated into the ALL IN ONE trolley thanks to the Lock-Unlock patented stacking system.
Its shock-resistant polypropylene shell, compatibility with older models via the AI1LID cover, and integrated INTELLIRESPOND technology make this an advanced tool case for professionals on the move.

Features

1. Dual organization with FLEXI POUCHES™ and PSS™ panels Equipped with two complementary tool holder systems: FLEXI POUCHES™ for a visible and flexible arrangement, and PSS™ for an orderly and modular management of hand tools. 2. Compact yet extremely spacious case With external dimensions of 585 x 369 x 198 mm and a weight of only 4.11 kg, it offers optimal capacity in a small footprint, ideal for frequent transport or tight work environments. 3. AI1MOD modular system for customizable configurations Usable independently or in combination with other modules and trolleys from the ALL IN ONE line, it allows the creation of a custom professional container, fully expandable. 4. Patented Lock-Unlock system for quick stacking The practical push-button allows the module to be attached or detached in seconds, making on-site handling smoother and more efficient. 5. Guaranteed compatibility with older generation ALL IN ONE trolleys Thanks to the new AI1LID cover, the module is fully compatible with previous versions, ensuring full backward compatibility. 6. Rugged shockproof polypropylene structure The rigid and durable body ensures the protection of contents even in harsh conditions, while keeping the case lightweight and easy to handle. 7. Digital tool management with INTELLIRESPOND The free INTELLIRESPOND app allows you to record and monitor your tools directly from a smartphone, improving efficiency and control.
