PRODUCT DATA SHEET

GT Line Tool Case AI1MOD16

EAN 8024482191461

Intelligent Modularity and Additional Capacity for Your Daily Work

The AI1MOD16 tool case is a compact and robust module designed to expand the capacity of GT Line's ALL IN ONE system.
Perfect as a standalone tool case or integrated professional container, the AI1MOD16 provides maximum flexibility for professionals who need extra space for hand tools, power tools, and bulky spare parts.
Made of durable polypropylene via injection molding, this tool case features the patented Lock-Unlock system for fast and secure stacking and release.
When combined with the AI1LID cover, AI1MOD16 can also be used with previous ALL IN ONE versions, ensuring full compatibility and continuous workflow.
With integrated INTELLIRESPOND technology, you can digitally track and manage your tool case content directly from your smartphone.

Features

1. Smart expansion of the ALL IN ONE system

AI1MOD16 is designed to increase the load capacity of the ALL IN ONE trolley, transforming it into a modular, customizable professional wheeled transport system.

2. Usable as a standalone unit

This module also functions as an independent professional case, ideal for carrying additional tools, components, or large spare parts.

3. Patented Lock-Unlock system for quick stacking

The practical release button allows easy stacking and separation of modules, simplifying field operations and improving tool organization efficiency.

4. Backward compatibility with previous ALL IN ONE versions

With the addition of the new AI1LID cover, AI1MOD modules can also be integrated with previous generation trolleys, offering maximum versatility.

5. Lightweight yet durable structure

Made of impact-resistant polypropylene using injection molding, the case offers strength and durability

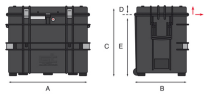

without compromising on lightness (only 3.21 kg), ideal for daily use.

6. INTELLIRESPOND technology for digital management

Thanks to the free app, you can manage your tool inventory directly from your smartphone or tablet, improving control and operational efficiency. Learn more at www.intellirespond.com.

7. Compact and easily integrable design

With external dimensions of 585 x 369 x 198 mm, the case fits perfectly with other modules and finds its place in any operational context, including equipped vehicles or mobile workshops.
