PRODUCT DATA SHEET

GT Line Tool Case AIMOD31

EAN 8024482191508

Extra Capacity and Total Modularity for the Demanding Professional

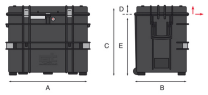

The AI1MOD31 tool case is the high-capacity module designed to enhance the GT Line ALL IN ONE range.
Perfect for storing power tools, extra hand tools, or bulky spare parts, it can be paired with the main trolley or used as a standalone professional case.
Made of tough injection-molded polypropylene, it provides the same strength and reliability that made the ALL IN ONE system famous worldwide.
Thanks to the patented Lock-Unlock system, the AI1MOD31 can be stacked and detached with ease, offering a modular and mobile solution for any professional need.
Compatible with previous ALL IN ONE models via the AI1LID cover and equipped with INTELLIRESPOND technology for digital content control and tool tracking.

Features

1. Extra capacity for bulky tools or power tools AI1MOD31 is the ideal solution for those who need additional space within their transport system: a professional container for large-sized tools. 2. Standalone use or in combination with other modules Can be used on its own as an independent tool case, or stacked with other AI1MOD series modules to configure a modular and mobile tool case. 3. Removable inner drawer for flexible organization The internal space includes a large removable drawer, perfect for organizing tools, accessories or specific components, keeping everything in order even while on the move. 4. Patented Lock-Unlock system for quick stacking The practical release button allows you to stack and unstack modules in seconds, increasing speed and ease of use in dynamic work environments. 5. Compatible with previous generation ALL IN ONE systems With the AI1LID lid, AI1MOD31 can also be used with older version trolleys, ensuring continuity of use and maximum reusability of your equipment. 6. Sturdy yet lightweight structure Made of shockproof polypropylene, it weighs only 4.79 kg and offers protection and portability — ideal for those looking for a ready-to-use professional tool case. 7. Digital management with INTELLIRESPOND technology Thanks to the free INTELLIRESPOND app, you can track, inventory and manage the contents of the case directly from your smartphone. Info at www.intellirespond.com. 8. Ideal dimensions for transport and modular integration With compact dimensions (585 x 369 x 348 mm), it integrates perfectly with other modules in the range and is easy to transport in workshops or equipped vehicles.
