PRODUCT DATA SHEET

GT Line Tool Trolley AI1 X.B.2LR

EAN 8024482183602

Modularity, Safety and Organization for the Professional on the Move

The AI1X.B.2LR tool trolley is a professional case designed to meet the needs of mobile technicians, maintenance workers, and field operators requiring a robust, organized, and highly customizable tool container.
Made of durable injection-moulded polypropylene, this tool case is ideal for tough environments and extreme conditions.
Its modular configuration allows the front section to be fitted with a combination of drawers, organizers, and tool panels — transforming it into a fully customized tool case.
Thanks to INTELLIRESPOND integration, the AI1X.B.2LR offers digital control of gear directly from your smartphone.

Features

1. Robust and lightweight structure for every operational context

High-density injection-molded polypropylene ensures high resistance to impacts, loads, and external agents, while keeping the case lightweight and easy to transport.

2. Customizable organization for every type of tool

Up to 8 front drawers configurable with organizers, pre-cut foam inserts, or tool panels, for a system fully adaptable to the professional's needs.

3. Intelligent small parts containment

Includes 5 small parts drawers (2x WL01, 2x WL02, 1x WL04) with predefined compartments for screws, bolts, and small components. Two additional organizers of 60 mm and one of 95 mm provide extra flexible space.

4. Centralized locking system for maximum security

A central key lock simultaneously secures the top and front lids, protecting contents from unauthorized access and ensuring safety during transport.

5. Smooth mobility and easy transport

The telescopic handle, two side handles, and sturdy silent wheels enable easy transport even on rough surfaces and during long movements.

6. Integrated INTELLIRESPOND technology for digital control

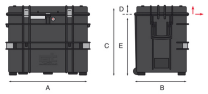

With the free INTELLIRESPOND app, you can monitor and manage your tools digitally, optimizing traceability and operational efficiency. Learn more at www.intellirespond.com.

7. Expandable modularity with stacking system

The top lid is equipped with a patented system for attaching AI1MOD modules, allowing you to extend the case with additional compatible professional containers.

8. Accessories and details designed for professionals

Removable top tray, name tag holder, content identification label, and multiple padlock points make the AI1X.B.2LR tool case complete, secure, and functional.
