PRODUCT DATA SHEET

GT Line Tool Trolley AI1X.B

EAN 8024482183596

Maximum Versatility and Organization on the Move

The AI1X.B trolley is a professional container designed for technicians and maintenance technicians who need a durable, versatile and highly organized tool case. Constructed from robust polypropylene via injection moulding, it is ideal for demanding work environments. The modular structure is sold empty and can be customized different types of drawers obtaining up to 8 possible configurations. The large space available and the optional accessories make this tool case the ultimate solution for those looking for order, safety and practicality, even during long journeys. Thanks to the integrated INTELLIRESPOND technology, you can manage and monitor the contents of your suitcase directly from your smartphone, for intelligent control of your equipment.

Features

1. Maximum resistance in all working conditions

Made of high-density injection-molded polypropylene, this tool trolley is designed to withstand shocks, stress, and extreme conditions, ensuring long-lasting protection and durability.

2. Modular system with configurable drawers

The internal space can be customized with 3–8 drawers of various heights (30, 60, 95 mm), outfitted with pre-cubed foam, small parts cups, or tool panels, turning the trolley into a truly tailor-made tool case.

3. Quick and safe access to tools

The removable drawers are equipped with an anti-release safety lock, preventing accidental opening and ensuring neat and secure access to each tool.

4. Centralized locking with key

A centralized locking system allows simultaneous locking of the top and front covers, protecting contents from unauthorized access and accidental openings during transport.

5. Easy transport and professional mobility

Equipped with a telescopic handle, two side handles, and four robust silent wheels, the trolley moves easily even on rough terrain, reducing fatigue and increasing productivity.

6. Smart tool management with INTELLIRESPOND

Thanks to the free INTELLIRESPOND app, you can track, inventory, and control your tools directly from your smartphone. Visit www.intellirespond.com for more details.

7. Advanced organization for small parts

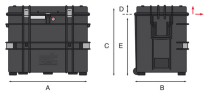

Includes 5 preconfigured small parts drawers (2x WL01, 2x WL02, 1x WL04) with dedicated compartments for screws, nuts, bolts, and small components—for optimal, always-accessible organization.

8. Expandable structure compatible with additional modules

The new top cover features a patented stacking system compatible with AI1MOD modules, allowing expanded capacity and the creation of a full multi-level system.

9. Details that make a difference for professionals

Removable top tray, dual-lever locks, identification label, padlock-ready lock points, and name tag: every detail is designed to simplify the daily use of your tool case.
