PRODUCT DATA SHEET

GT Line Tool Trolley AI1

EAN 8024482178745

Maximum Mobility and Organization for Professionals

The AI1 tool trolley is the ideal professional container for those who work on the go and need a solid, capacious and perfectly organized tool case. Made of high-strength polypropylene with injection molding technology, it offers lightness, protection and durability even in the most extreme working conditions. This professional case is sold empty and can be customized one of the 10 standard configurations possible thanks to the wide range of accessories and is equipped with a removable tray, reinforced locks and an ergonomic transport system with 4 sturdy wheels and telescopic handle. AI1 is the perfect choice for technicians, maintenance technicians, installers and operators in the aeronautical, industrial and construction sectors who need a versatile, customizable and ready-to-use tool case.

Features

1. Maximum resistance and durability in all conditions.

Impact-resistant polypropylene ensures effective protection against impacts, dust, water, extreme temperatures and corrosive agents, guaranteeing maximum safety for your tools.

2. Ergonomic and silent transport system.

The telescopic handle combined with 4 self-lubricating wheels makes the trolley easy to maneuver even when fully loaded, ideal for frequent movement on any type of surface.

3. Flexible and smart internal organization.

The removable top tray and the 5 small parts drawers (mod. WL01, WL02, WL04) provide an organized internal space, allowing quick access and precise tool management.

4. Advanced modularity for customized configurations.

Thanks to the patented coupling system for AI1MOD modules and compatibility with AIDRAW drawers (available in 3 heights and various configurations), it is possible to create a perfectly customized tool case.

5. Enhanced security for tool protection.

Central locking with key, two locks on the front lid and two on the top. Ready for additional padlocks and removable lids with safety lock to prevent accidental opening.

6. Fast and professional identification.

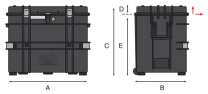

Adhesive label for content identification and integrated name tag holder for immediate recognition in airport or logistics environments.

7. Compact yet extremely spacious.

With external dimensions of 585 x 389.2 x 466 mm and a contained weight of 10.85 kg, the AI1 trolley offers an excellent balance between compactness and load capacity, ideal for air transport and daily use.

8. Advanced professional tool case.

The stackable structure, the ability to configure the internal spaces, and the wide range of available accessories make AI1 one of the most advanced and versatile tool cases on the market.
