PRODUCT DATA SHEET

Work Line by GT Cintura Porta Attrezzi Top Belt R

EAN 8024482189475

Freedom of Movement and Maximum Modularity

TOP BELT R is the perfect solution for professionals seeking a comfortable, durable, and versatile tool belt. Featuring ergonomic padding, it ensures high freedom of movement and optimal weight distribution of tools. Thanks to its quick-release system and compatibility with Work Line accessories, it transforms into a wearable transport system, serving as a practical alternative or complement to any tool bag, tool backpack, or tool case. Lightweight and sturdy, it is ideal for electricians, maintenance workers, and technicians who need to keep their tools always within reach.

Features

Extended Comfort Even During Long Work Sessions.

The ergonomically padded belt ensures maximum comfort, preventing pressure points even with heavy loads and bulky tools.

Adjustable Size for a Customized Fit.

Length adjustable from 920 mm to 1350 mm, perfectly adapting to any body shape and type of workwear.

Quick-Release System, Practical and Secure.

The quick-release buckle allows you to put on and take off the belt in seconds, always maintaining

maximum safety during use.

Full Modularity for a Personalized Setup.

Compatible with Work Line tool holder accessories, enabling you to create a tailor-made tool belt based on individual professional needs.

Essential Tool for Those Who Work on the Move.

Perfect for those who prefer a wearable toolset for maximum freedom of movement and operational speed.

Ideal Complement for Tool Backpacks and Cases.

The TOP BELT R integrates seamlessly with a professional backpack, work backpack, or tool case, expanding carrying capacity and organization.

Robust, Lightweight, and Practical Design.

Weighing only 1.55 kg, it combines durability with lightness, ensuring long-lasting performance even in demanding work environments.

Work by GT Line: Modularity and Professional Quality.

Part of the GT Line professional range, the TOP BELT R is designed to meet the needs of every technician, craftsman, and installer seeking reliability, ergonomics, and practicality.
