EAN 8024482188898

Maximum Versatility and Organization for the Modern Professional

The TOP Pilot R tool bag is the ideal choice for dynamic professionals who need functional organization and protected space for tools and technological devices. With a “pilot-style” design and vertical opening, it is perfect for storing work tools and laptops up to 18". Equipped with an adjustable shoulder strap and side pockets, it can be combined with any professional backpack, tool case, trolley, professional tool bag, ensuring efficient management of equipment in the field.

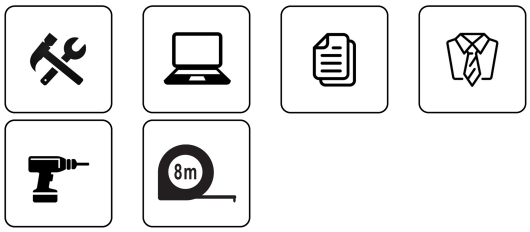

Features

1. Convenient vertical access for tools and laptop.
The vertical development design allows full and organized opening, ideal for storing a laptop up to 18" along with essential work tools.
2. Multifunctional structure for professionals on the move.
Designed for technicians, installers, and maintenance professionals, this tool bag combines elegance and functionality in a compact, high-performance format.
3. Quick and modular organization.
The front and rear areas are equipped with elastic tool holders.
4. Side pockets.
The two side pockets offer additional space and are padded to protect delicate components, electronic devices, or consumables.
5. Ergonomic adjustable neoprene shoulder strap for comfortable carrying
The practical strap allows the bag to be carried on the shoulder even during frequent travel, keeping hands free for fast operations.
6. Compatible with professional transport systems.

The TOP Pilot R integrates perfectly with tool backpacks, work backpacks, tool bags, or tool cases, expanding loading capacity and organizational efficiency.
7. Sturdy and professional design.
With dimensions of 470 x 160 x 330 mm and a weight of 2.90 kg, it is built to provide long-lasting durability and protection for tools in any work environment.
