PRODUCT DATA SHEET

Work Line by GT Tool Holder Panel Top Tool Roll R

EAN 8024482189406

Maximum Organization and Practicality in Every Work Environment

The Top Tool Roll R is a compact and versatile tool panel designed for professionals who want practical, immediate, space-saving organization.
Thanks to its roll-up design, multiple pockets, and integrated elastic loops, it keeps tools of various sizes neatly arranged.
Perfect alongside professional backpacks, tool bags, work packs, or tool cases, it features a carrying handle, Velcro closure, and wall-mount rings — a multifunctional solution for mobile or workshop-based work.

Features

1. Roll-up structure for intelligent space management.
The compact format allows the panel to be easily rolled up, making it ideal for inserting into tool bags, work trolley backpacks, or professional cases without taking up excessive space.
2. Multiple pockets and elastic bands for precise tool organization.
Various sewn pockets and elastic bands securely hold tools of all types, from the smallest to the bulkiest.
3. Central handle for quick and comfortable transport.
Thanks to the practical integrated handle, the panel is easy to carry, even during frequent travel.
4. Velcro closure for secure protection of tools.
The Velcro closure keeps the roll tightly shut during transport, preventing accidental tool spillage.
5. Two metal rings for wall or workbench mounting.
The metal rings allow the panel to be hung wherever needed, turning it into an accessible, tidy vertical workstation.
6. Compatibility with all professional tool transport systems.
The Top Tool Roll R integrates perfectly with tool backpacks, professional work backpacks, tool bags, or tool cases, improving efficiency and accessibility in every operating situation.
7. Lightweight and durable for daily use.
Weighing only 0.40 kg and measuring 605 x 540 mm, the panel is designed to last over time without overloading the professional's kit.
